Brief discussion about the National Panchayat Awards (NPA)

History

The concept of local self-government isn't new in India. Panchayats have existed since ancient times, serving as councils of village elders. During British rule, local governance structures were formalized, though with limited powers. After India gained independence in 1947, the need for a robust local self-government system was recognized. The Community Development Program (1952) and the National Extension Service (1953) were early steps toward strengthening Panchayati Raj institutions. The National Panchayat Awards were first introduced in India in 2011. The awards are given annually by the Ministry of Panchayati Raj to recognize the best-performing panchayats (local self-government bodies) in the country. The Deen Dayal Upadhyay Panchayat Sashaktikaran Puraskar (DDUPSP) is awarded to the best performing Panchayats at the district, intermediate, and gram levels across states and union territories (UTs). The award recognizes the good work done by PRIs at each level to improve the delivery of public goods and services.

Background

The 73rd Constitutional Amendment Act of 1992 provided constitutional status to the Panchayati Raj institutions, mandating the establishment of Gram Panchayats as the third tier of governance. A Gram Panchayat typically covers a village or a group of villages. It consists of elected representatives, including a Sarpanch (head) and Panch (members), chosen through local elections. Gram Panchayats have jurisdiction over a defined area, known as a Panchayat circle or Gram Sabha area.

April 24th is celebrated as National Panchayati Raj Day in India to commemorate the historic passing of the 73rd Constitutional Amendment Act, 1992, which came into effect on this date in 1993. The day is also used to raise awareness about the importance of local self-governance and to educate the public about the roles and responsibilities of Panchayats. On National Panchayati Raj Day, various events and conferences are held to discuss the role of Panchayati Raj institutions in rural development. Outstanding Panchayats are awarded for their contributions to governance and development. By celebrating April 24th as National Panchayati Raj Day, India acknowledges the pivotal role that Panchayati Raj institutions play in the democratic and developmental processes at the grassroots level. Ministry of Panchayati Raj has been incentivizing best performing Panchayats through National Panchayat Awards. These awards have been revamped and launched during the year 2022 aligning them with 9 Localization of Sustainable Development Goals (LSDGs) themes aggregating 17 SDGs.

The awards assess the panchayats' performance in achieving the Sustainable Development Goals (SDGs). The awards also aim to promote a competitive spirit among the panchayats and accelerate the process of achieving the Localization of Sustainable Development Goals (LSDGs) by 2030.

The National Panchayat Awards are also given to Panchayats for their outstanding contributions in other areas, such as:

Objectives

➢ To bring governance closer to the people, allowing for more responsive and accountable administration.
➢ To promote social, economic, and cultural development at the village level.
➢ To ensure active participation of the local community in decision-making processes.
➢ To oversee the implementation of various government schemes and programs related to health, education, infrastructure, sanitation, and agriculture.
➢ To provide a platform for resolving minor disputes within the village, fostering harmony and cooperation among residents. Healthy competition among panchayats to achieve higher standards of development.

➢ To promote the hard work and dedication of panchayat members and local communities in improving their living conditions.
➢ To providing motivation for other panchayats to strive for better performance and adopt best practices.
➢ To promoting best practices for highlighting successful models of rural development that can be replicated in other regions.

This structured timeline ensures a transparent, fair, and comprehensive evaluation process, encouraging Panchayats to continuously improve their governance and service delivery.

The National Panchayat Awards in India recognize and incentivize the best-performing Panchayats (village councils) for their exceptional work in different domains.   Given annually to **best performing Panchayats** under Incentivization of Panchayats scheme in recognition of their good work for improving delivery of services and public goods

➢ Awardees selected based on **pre-defined questionnaires and criteria**
➢ Awards ceremony a part of celebration of **National Panchayati Raj Day (24th April)** – (deferred during elections)
➢ Awardees are conferred with **trophies, certificates and financial incentives**
➢ Occasion graced by **Hon'ble President / Hon'ble Prime Minister**
➢ Awards and Recognition

These awards aim to incentivize good governance practices and foster competition among Panchayats to improve their performance and service delivery.

To ensure the credibility and transparency of the awards, district and block-level committees are formed to verify the data submitted by Panchayats. Here's an outline of the roles and responsibilities of these committees:

Roles and Responsibilities of BPPAC:-

- Initial Data Scrutiny
- Conduct preliminary verification of data submitted by Panchayats.
- Cross-check information with local records and reports.

Field Visits:-

- Visit Panchayats to validate the submitted data.
- Interact with local residents and stakeholders to gather independent feedback.

Reporting:-

- Compile and submit verification reports to the District Level Committee.
- Highlight discrepancies and provide recommendations.

Support and Assistance:-

- Assist Panchayats in understanding the criteria and process for the awards.
- Help Panchayats prepare and present their data effectively.

Monitoring and Follow-up:-

- Monitor the progress of Panchayats throughout the verification process.
- Follow up on any issues or discrepancies identified during verification.

These committees play a crucial role in ensuring that only deserving Panchayats are recognized, thereby promoting healthy competition and encouraging better governance at the grassroots level.

District Level Selection of GPs

Timeline: 1st Aug.-15th Aug., 2024

- Inclusion of a technical expert for data verification.

DPPAC will **field verify** responses on all questions of **top 3 ranking GPs** recommended by BPPACs and submit field visit report in prescribed format

DPPAC will **recommend top 3 ranking GPs** under each theme to State/UT in prescribed format

Roles and Responsibilities:-

Verification of Data:

- Ensure the accuracy and authenticity of the data submitted by the Panchayats.
- Conduct field visits to verify the claims made by the Panchayats.

Review and Assessment:-

- Review the performance of Panchayats based on various parameters.
- Assess the impact of initiatives and programs implemented by the Panchayats.

Coordination:-

- Coordinate with Block Level Committees for smooth verification processes.
- Facilitate communication between different stakeholders.

Documentation:-

- Maintain detailed records of the verification process.
- Document the findings and submit reports to the State Level Committee.
